

It's that time of the year, when the whole world of dance music turns to one single place to seek inspiration, get educated on the latest trends and get introduced to the exciting new talents of djs and artists. Miami becomes the essential stop for artists, promoters and fans, and Kapa Music could not have a more commanding presence to the 24th Winter Music Conference.

WMC is all about the parties and Kapa presents the most exclusive House Party at the most exclusive Hotel in South Beach, Setai. On the 26th of March, Kapa Music will be hosting an intimate music event with residents & friends. Talents such as Mr. V (in his exclusive WMC appearance), Samantha James, Claude Monnet & Torre Bros, Jay J (with live performance), Martin East (with live performance by Jarred Douglas), Raul Campos, Christos Kedras, Random Soul, Justin Michael and Theo Zanos will provide the soundtrack for one of the most exclusive and most talked about parties in this year's WMC. The party will feature listening party for Jay-J's new album and Raul Campos will be there to report live from the premises to the millions of KCRW listeners. There is no cover for the event and access to the party can be achieved only through Kapa's guestlist (email: wmc@kapamusic.com). View event flyer [here](#).

On top of organizing the definite party in Miami, Kapa Music will make it's mark at this year's WMC with two massive new releases that will surely make waves and set the tone on the dancefloor.

Martin East follows up to the huge success of "Some People" with incredible new remixes, that stay true to the quality ethic of Kapa Music, while charging their way to dancefloor mayhem. The harder-stronger rhythm coupled with old-school basslines that sounds more fresh than ever, make a package that will have heads rolling and bodies moving.

Kapa's one-two punch would not be complete without Christos Kedras new gem, "Sweet Sensation", with remixes by Richard Earnshaw, Yogi & Husky (aka Random Soul) and Kapa's own residents, Martin East and Theo Zanos. Christos delivers once again, to the relief of his followers around the globe. Receiving already raving feedback, we can only imagine the massive response this offering will have on the dancefloor.

This month is set to be a defining month for the Kapa Music establishment and the Kapa crew is delighted to move on to new levels that very few dance music labels have reached.
